

Bike alarm & Tracker 708A3+

Relax to have a cup of coffee

▶ Alarm on both remote & Tag unit when someone move your bike

▶ Find your bike with direction indicator in line of sight at 800m/2500ft

Bicycles are stolen everywhere and every day no matter they are with or without locks. To protect your bicycle from being stolen, our Digital RF wireless bicycle alarm system can be your best solution. Once the bike theft happens, the Bike-Alarm will sound loud beeps to scare the thief away and the Beeper will also immediately activate an emergency alarm to warn you to check the bicycle and take the necessary actions urgently. Therefore, with Bike Guard 708A3 Plus armed on the bicycle, whenever you want to take a short break in the cycling journey, there is no need for you to worry about parking your bike nearby.

Anti-Lost

A sensor is built-in to detect the vibration, while someone is trying to move your bike.

Bike Alarm

Bike will alarm for 10 seconds and repeats alarming until vibration on the bike stops.

Key Features

- Anti-Theft
- Easy to find your bike
- Digital RF 2.4GHz
- Water splash proof
- Low power consumption
- Easy to installation and DIY
